

Felipe's Success Story

Services Used:

- Walk in consultations to review CV and cover letter
- Mock interview
- Lobo Career Connection

Success Story:

I graduated in December 2014 with my second Master’s degree from UNM in Organizational Learning and Instructional Technology. Being an international student, I have a whole new set of challenges when it comes to job searching. Being aware of that, I looked for the help of Career Services early on. Prior to my graduation, I visited the office several times and met with career advisors such as Matt Apodaca, Tara Hackel, and Megan Phillips. They helped me with job searching, cover letter review, and resume review. I also had a recorded mock interview, which was extremely helpful in preparing me for the interview process. They even looked up jobs at UNM in my field and encouraged me to apply. Shortly after my graduation, all the help and resources from Career Services and my hard work landed me a job at the UNM School of Medicine as an Instructional Media Specialist. I am truly grateful for the services and people at UNM career Services. They go above and beyond their duty!
