

## **Madison Rightley**

### **Services Used:**

GMI Recruiting Event  
Anderson Ambassador

### **Major**

Undergrad - Biology (from TCU), Graduate - MBA from Anderson School of Management

### **Success Story:**

I graduated from UNM with my MBA this past May 2017 and loved being a Lobo! I started working for General Mills in July 2017 and have loved it so far! I moved to Minneapolis to work as a Business Management Associate in Category Management on Yogurt in the World Headquarters office and have been incredibly welcomed into this family. The employees here genuinely love their jobs and are incredibly helpful. I have never felt alone or scared to ask questions and be heard. People care what you have to say and enjoy hearing your input, even if you're new. It has been an adjustment moving from New Mexico and I miss green chile and the mountains, but Minneapolis is a beautiful city and General Mills is a wonderful company. I am very grateful to have connected with the recruiters and been asked to join the GMI family.

I randomly attended a recruiting event because the company sounded so fun, and ended up flying to Minneapolis and being offered a job within four days! My advice is to attend any recruiting events General Mills offers at UNM and just see if it's for you! I never would have thought I'd be here now, but going to that recruiting event changed my focus and I could not be happier with this decision.
